Prologue: *Abandon Everything You Have Ever Known.*

This film will serve as the **platform** to showcase a **potential future** we can **each** help **truly** create together. We will try our best to present this in a way each human being can comprehend. This film will centralize around an idea, an idea close to all our hearts. In fact, it is **one** of only **two** ideas I believe we share universally. That of freedom. And that of love. Freedom is what binds us. Freedom and Love unite us. We are connected by this spirit.

This film comes with instructions. It is like a game. And you play this game by sharing this film relentlessly. Your participation is vital to its success. In fact, **everyone's** participation is vital to its success. The more people who watch this, the more successful we will each be. True victory cannot be won without the help of every being on this Earth. If even **one** of you does not share this **then we may fail**. **You** just became the **one person** who can change the world. Literally. That's how powerful we can make this. **Are you ready?**

If we can actually follow these instructions, then I believe the result will be world peace, abundance for all, a heaven, a utopia, total freedom, health, happiness, love, ecstasy, euphoria and power for every single person. The environment and the systems we will employ will ensure this reality can be cultivated and maintained with the least amount of effort required. It will allow us and our progeny to ascend and evolve. And the responsibility will be each of ours together, as self-sufficient individuals.

I just cut your workload in half. I just promised you infinite potential. I just promised you abundance; a better quality of life. I just promised you Heaven on Earth. And I promise you, **you are necessary!**

World Peace now just became your **personal** responsibility. Why are we here if **not** to **affect** reality?

Please take this seriously. We can literally do this. We **can** awaken the sleeping Giant that is humanity!

If we can see this film through to the **end**, and share this film, with the expectation everyone else who watches this will do the **exact same thing** then I believe we will truly succeed because the audience will **exponentially increase** until we are riding a **wave** of momentum that cannot be stopped. And we will begin to see results within months!!

Freedom is a virus that cannot be contained once it has been unleashed. **You must unleash it.**

No army can stop an idea whose time has come. This idea is long overdue. If we cannot bring this idea to fruition I promise you the darkest days of our entire life will follow. Our species will become extinct.

This film should appeal to your common sense. **Do you want to die?**

This is what is at stake. Life itself. For this reason, I ask you allow this film to transcend all appearances. If we could only look past the superficialities to the core message, please recognize we **must** stop this **division** to move forwards. Rather than actively finding faults with this film, we could instead unite. Please resonate with the intention behind these words. This is not about fame or money, or being cool or uncool. This is about an idea. This is the difference between **life** and **death**, and as a **soul** symbiotically connected to yours, I feel an instinctive compulsion to present this to you as best I can, to

warn you because, my friends, we are the last generation on Earth that can do something. I truly believe this. We are humanity's last stand. That is the situation we face.

A great idea is more powerful than a standing **army** and can spread **without limitation** once it is widely understood and visualized in the mind. I have visualized a free future of abundance and it looks magical, it looks beautiful, and it looks **completely achievable**. **People assume World Peace and Abundance is something elusive and complex, but it is incredibly easy!** All it will take is the **right mindset**. All it will take is **your co-operation right now**.

The answer is in an empowered perspective. Essentially, your task is to **take** this film as though it was your own, and ask **others** to watch it. And do not accept 'no' for an answer. This **is** for **you** humanity. Your responsibility is to share this as far and wide as you can, relentlessly. Make this idea **known!** **That** is how you play! If humanity puts their energy into this, like a spirit bomb, I believe we can finally put an **end** to **all** our problems.

If we fail, we **will** lose everything. I guarantee it.

This will all be **confirmed** to you one way or the other. It is becoming too real to ignore.

So clear your mind. Now. Empty it. We need a clean slate. And please enjoy this film. Resonate with the message and **share it**. And we will create Heaven together. And you'll feel really confident about how to do it. Good luck, humanity. We're going to need it.

Introduction:

Please put everything down, forget everything. Turn off your phones and **anything else** keeping us distracted. Seriously, turn them off. For the next two hours this film **needs** to take the priority. Responsibilities can wait for another time. I ask for your undivided attention and co-operation, please.

This is about **more** than we are. This is about **you** affecting **real**, positive change **real fast**.

Relax and make sure you are comfortable, and please **truly** take in what it **means** to be **alive** at this moment in time, at this moment in history. We are each experiencing a moment in history with 7 billion other people. We are each witnessing the **same** situation as each other from subjective viewpoints. Define reality, what has life become in your eyes? Is this the world you imagined when you were a child?

History is being written right around us, right now.

The inherent problem with society lies in the fact **we** are not the authors of our **own** lives. We are not in control, we are not. We are giving this power away. Human history is being written by the most malicious, psychopathic, heartless, eugenicist control freaks. This is literally the mindset of the people **running our world** and **shaping our future**. The world has become a corporation to be managed called the New World Order.

Those in the top echelon of the New World Order want to maintain control by manipulating world events and human psychology; they want to make you dependent on them and they want to chemically

destroy us because **ultimately** the New World Order has but one purpose, to cull the human population of Earth by 95%. This is the planned conclusion, our humiliating end. **This is 100% real**. And they will not relinquish power unless **we** the people **rise up**.

The most **inexplicable** question **I** face is **why don't** we? Why do we **not care** that our future is in the balance? Why do we feel anything else **but** this **inherent** problem **matters**? **Seriously?** We allow these people to **continue** dictating to us the direction of our species. We allow these **few** to govern the many with no **real** input from the public. Your vote doesn't count. It doesn't. You have no say in this game. You have no input. Decisions are made regardless of what we think because spiteful psychopaths **insist** we obey their every whim. If we do not obey we are outcast, thrown in a cage, drugged or killed.

This system breeds criminality by its very nature. It is **obsolete** and yet it continues to tread along at the expense of all life on this planet! It is ridiculous and dangerous. Am I right? Prove me wrong. You can't. Accept it. Stop being offended. While it is **important** to understand **why** our society is the way it is and **who** is pulling the strings, ultimately our **main concern** should be how to dismantle this system, and restructure society to benefit us all. To tangibly reform how everything is managed and powered. This will be elaborated on this throughout the course of this film.

The future of this world is **our responsibility**, it is all of ours as custodians of it, and yet we give this power away. We **TRUST** the government blindly, believing the lie, when all their words and actions **demand** we do otherwise.

Why do we sit back in ignorance? Why do we allow this? Do we feel our actions have no effect? Please do not ever **doubt** the consequences of **every single action** you take, and do not ever doubt the consequences of your every **inaction**. Everything you do or **do not** do is a **life changing event** and a **spiritual experience** to yourself and those around you, and there is **always** a reaction and a **consequence**. By making **one inconsequential move** you can radically change a series of events, and thus change the future itself. This **is** the butterfly effect.

We must abandon the fear of standing up for what we believe in; our fear of death or ridicule. Those in charge are already laughing at us, they are already killing us and **we are already involved in this game whether we admit it or not**. Until we become aware of the manipulation we will continue to be obviously **victimized** by it while pretending it does **not** exist.

We are all alive right now; this is significant in itself! And all we have **is** the **NOW**! We are each experiencing the same global **event** from subjective viewpoints. We are each contributing to this **ever-changing reality** in our own unique ways. We create ripples with our every **thought**. The **future** is the result of every effort we make **right now**. We each wield the power to affect our reality.

And yet we tarry about, so as not to meet our destiny.

Why? Have we forgotten what reality **is**? **Truly? Behind** this fictional façade? Have we forgotten what **life actually** is? How powerful we are? Who we are? Why we are actually here? What we are here to do?

How did we **get** to this point? Why are we in the **state** we are in? How are my actions contributing to it? How many of us **ask** these questions? Are these not the most important questions to ask?

We have been shrouded from the truth to keep us in ignorance. I do not know **everything** but I believe I know what life is, I know who we are, I know where we are, I know why we are here, what we are here to do and I **know** how to do it. I **know** that by doing it we will create **Paradise** and I **know** Peace is our true destiny. And I know the universe is on our side!

We have reached a fork in the road, one path leads to our salvation, the other, our extinction. Both paths **will** follow a design, nothing is by chance. The question is **which path are you currently on?** The question is which **path** would you rather take? Are you willing to break your conditioning and unlearn the lies you have been taught?

I know World peace is our only option! I **know** every problem we face as a species stems from one encompassing problem, and I know the solution to this problem! I **know** making this idea **widely known** is 1/2 the battle and **positive thinking** and **positive action** the other half. **And I know YOU are truly necessary to help bring this about!!**

I know this because you are here!

And I **know** that **conveying** this to people is one of the hardest things I have ever had to do because... I am asking you to **completely abandon** almost **everything** you have ever known to be true! And **everything** you have based your **entire life** upon. Everything you have invested in... is a lie. My only **hope** is that you will act on the information I will present. **The instructions are simple enough.**

Because of the subjective nature of how we each view reality this will **always** remain a question of faith, so basically I am asking you to look past the trivialities in the presentation of this film to the **core idea** and **intent** with which it was made. This movie is for all of us. Ultimately I am asking you, do you trust me?

You have everything **inside you** necessary to **save** this world. And I will **ensure** you are armed with the knowledge to do so! **I think we are finally ready to make this leap!** Humanity, this is reality as I see it...

What is Reality?

The society we have **grown accustomed** to is based around an imaginary set of rules and a series of limitations that are entirely fictional. **This world is real. Society isn't.** Think about it. What gives this society credence? Our faith. Human **consciousness** is real! Human **energy** is what is real! **Love** is real!

Nature is real! These are tangible forces in existence, everything else is illusory. Everything else is fiction. Ego, status, money, legislation, laws, **even our opinions and beliefs** are all **man-made** constructs **perpetuated** by this system and **upheld** by us. Reality exists in two forms. There is the **objective** reality, which exists **regardless** of what we **personally** believe, and there is our subjective perspective on reality.

Your perspective is reality from your particular point of view. The subjective reality varies from person to person and is ultimately determined by everything we witness in our unique life experience. Our **minds** shape our realities through information our brains receive, which we then decode and interpret and eventually express outwardly. We become a representation of all we have experienced.

The 7 billion of us have **each** experienced different lives. It is for this reason everyone's perspective is **valid**.

I am not saying **my perspective** on this world is 100% right or that yours is 100% wrong. But I also will not say **you** are right or **I am wrong** either, and neither should you. Because if you hold onto a lie and do not allow yourself to be **potentially wrong**, we will never make progress. We must always be open to this possibility!

Who is to say there is not a more accurate representation of reality than what you believe in? What if your perception on reality was no more than an embedded illusion? And what if this could be unlearned? What if it needed to be?

Our perspectives **radically change** when faced with new information.

And often people will **cling** to their perspective in **spite** of **THE TRUTH** out of fear or laziness or pride. This is what it boils down to. This is an **understandable** response, I mean if this person has been **led** to believe everything is okay, and is still operating in a dreamlike state, under the **fallacy** that the government **cares** about them and this system **works** then of course their initial reaction towards anything contrary to this would be **Denial**. Because if this system **worked**, why would we want to change it? Why would we fix what is not broken?

But what if the system **built** to destroy? What if it was detrimental to all life upon this planet? What if we were all being lied to on a daily basis and shrouded from the **truth**? This is what has happened.

This system is archaic. It is **statistically** destructive and abusive. This **universe** we live in is **ever-changing, ever-evolving, ever-moving** and **we** evolve with it with each passing day. And every day this system becomes more and more outdated and unnecessary and harmful. Those who run our world are corrupt, sociopathic and psychotic. Those cursed with this mindset strive for positions of power by their very nature! They have no empathy, they are cold-blooded murderers, literally. They twist and distort the minds of the populations on Earth through various methods of manipulation while pretending they are on our side.

More and more people are losing their unique perspectives on reality and falling victim to conformity with the status quo, complacency with evil and slavery to societal trends. **More and more** people are being molded to a particular image. **More and more** people are adopting a hive-mind mentality. More and more people believe they are **just another worthless cog** in this relentless machine.

And **more and more** people are realizing **we are MORE than this!** And we **each deserve** more than this! We have been engrained in this system for so long **some** cannot comprehend anything different or have simply forgotten **there is another way!** Some people make almost no independent thought! They speak in programs and automated responses!

Humanity does not have to stay relegated to this system and its ridiculous rules. If we knew these rules were **designed** to suppress humanity's potential would we not want to question our blind subservience?

I will **prove** to you this system is obsolete. I will prove to you it is dangerous to allow it to continue. I will prove to you this system is run by the scum of the Earth. I think you already agree with me on that. I will prove to you we can attain Peace on Earth QUICKLY. **Making this a reality, however, is in your hands.**

The more **entrenched** in this fictional system you are the **harder** it is to grasp anything new or **imagine** anything better. This no **error** on the part of any of us, I will explain why later.

It becomes an error, however, when we fail to recognize it **as** an error and **fail** to correct it. We must **stray** from this current path, all of us simultaneously. And it begins by clearing your mind, expanding your consciousness and asking the big questions. Who are we? Where are we? Why are we here? What are we here to do? And how do we do it?

Who are we?

At the **fundamental level** we are infinite consciousness having an experience. We are all wild, primal, spiritual beasts with the ability to perceive and interpret our existence. We are a soul. We have a connection to something larger than ourselves. We are synergistically connected to the universe **itself**; we share an affinity with all that **is**. Every organism reacts to human **consciousness**. We are each unique, divine manifestations of the stars and planets. We are each a smaller expression of the universe itself!

At our base state we are nothing and no-one, and we are **everything** in that. At our core, we are a clean slate, a blank canvas to draw upon. And we nurture these artificial social constructs like names, careers, reputations, titles, beliefs. These do nothing but lock us in self-imposed prisons. These prisons are preventing us from **progressing** to something more!

Our spirit exists in this biological entity. We are flesh and blood. We use these bodies of ours to traverse this dimension we live in. How we fuel our cells greatly affects our mood and personality. The health and well-being of our temple greatly corresponds with our perception on reality. We each consist of **trillions** of cells. When these are functioning **properly**, as they are designed to do, they form **one, holistic, perfect creation**, homo sapien, sapien. This is you!

We are protectors, nurturers and custodians of this world and its inhabitants. We have **inalienable** rights to life, liberty and love. No one can take these away from us.

We each have a light and dark nature and the ability to do what is both right and wrong. Some people, for whatever reason, perhaps due to insecurity or a jealous contempt for beauty and honesty and virtue, have no empathy. They have no connection to this intrinsic relationship we share with all organisms. They are spiritually un-evolved and morally empty people. I am sure everyone knows this sort of person to one degree or another. Perhaps you are one of these people? Everyone **knows** a control freak. These are the kind of people who **crave** positions of power in society because they feel **the need** to dominate others. And sometimes this can be directed constructively, sometimes we need **someone** to **take charge**. **The ones running our world, however, are the worst of the worst.**

I believe it is this system we have been born into that is ultimately responsible for breeding such mentalities, as it is the catalyst for almost all negativity in our world!

The state of our world is a reflection of the people who run it, and I assure you they are doing a terrible job of it! One which we could **each** do a lot better, I am sure you all agree.

We live in a world where men, women and children are being murdered daily, intentionally, where we are each being poisoned incrementally, where we are having the very genetic code of nature tampered with, where money has become the main motivator.

We are free spirits at our core; we are truly as free as a bird! Laws have no bearing on us but that which we allow them to. **We** have the potential to **do anything, be anything** at **any** given time. You always have this possibility.

We must each realize our potential and live it, utilize the lives we have been blessed with and not take them for granted! You are only alive **once** as your particular expression of creation. Consciousness will never manifest in your particular way, at this particular time, in this particular place ever again! You are so rare and you have infinite potential left untapped! You have literally manifested at this time and place for a reason. **This will soon become clear to you**. Through working together we can co-create the futures our hearts desire. This is the potential of mankind. If we remain divided we will fall. United we will ascend. What is keeping us from **uniting**? What is keeping us **separated**? And what or WHO is responsible?

Perceptions on Reality

Our perception on reality itself is completely inorganic. Do you understand the magnitude of that concept? **Your** entire perception on reality is not real, my friend. I can guarantee this.

Let me break it down for you. The trillions of cells we are comprised of are not functioning properly or organically. We **require** them to in order to function. Why **are** they not operating as they are designed to? The answer is, since birth, we have been **bombarded daily** with cellular toxicity. This toxicity accumulates over a life time and significantly **impairs** the functioning and stimulation and co-operation of the trillions of cells that make us.

Toxic damage and unhealthy lifestyle choices cause these cells to malfunction and die, and if sufficient numbers of cells are lost before being replaced or **regenerated**, the result is brain damage, premature aging, organ failure, sterility, cellular mutilation and ultimately the untimely **death** of the host organism.

We have each consumed copious amounts of mind-altering substances designed to suppress our potential and rewire our minds. From fluoride to aspartame, genetically modified foods, MSG, BPA, pesticides, fungicides, herbicides, vaccinations, heavy metal particulates, the average individual is inundated with a concoction of chemical-weapons. In **conjunction** these substances are causing mass dementia and sedation, they are reducing our intelligence, destroying our immune systems increasing allergies, as well as causing cancers, autism, obesity, hormonal imbalance and sterility. Naturally, consuming substances that change our perception on reality **daily**, with consistent usage over our entire lifetime is not conducive to a healthy organism. Nor is it conducive to an organic, ACCURATE perception on reality.

Can you imagine taking LSD every day from birth to death, do you think your experience would be an accurate expression of reality or **not**?

We have subjected our minds to **perpetual, hard-core, systematic** propaganda from the **mainstream media** and **education system**, both of which are owned by the same malicious power structure. The televisions themselves are designed with a flicker rate which puts us in a comatose, dream like state whereby we let our guard down and are extremely susceptible to manipulation.

Both these organizations indoctrinate the masses using government approved curriculums and talking points which are extremely **controlled! They** are designed to keep us in a desensitised, tunnel vision mentality where we only understand a small fraction of the bigger picture! We **stay** willingly ignorant.

We have been exposing ourselves to these toxins which have been gradually distorting our very perception on this world and thus we experience life **entirely inaccurately**.

We are more than what we have become! Many have NO IDEA what is going on or **believe their own bubble** of reality to be **all there is**. This is the result of the poisoning and propaganda we have each endured! Many of us have **bought** the fiction, **accepted** the lies, and **dawdled** in fantasy and delusion for so long that we **dismiss** any notion **contrary** to our **deeply-rooted**, established belief system. Or we feel ignorance is bliss. And why is this?

Is it **stubbornness** alone preventing us from progressing? Is it pride? Is it fear? Or are we biologically incapable of understanding? These substances are not there by chance. It is not enough to **run and hide** or pretend they do not exist because they are genetically manipulating nature, exposing us to radiation and dousing us in geo-engineering particulates. These are **unavoidable!** This has gone on far enough. We must call an end to this ridiculousness. And we must **consciously** rise above our current level of **consciousness**. We cannot solve this problem with the same level of intelligence that has created it. Remember who you are.

Eugenics

Please understand the people who run our world openly follow a religion of Eugenics. They orchestrate our world from **secrecy** in meetings such as the Bilderberg Group, an annually held conference of approximately 120 of the world's most influential and powerful people. The Bilderberg Group behaves as a *shadow government* and the *disturbing reality* is they are taking away *our right to direct our own destinies*. This is just one of many groups operating in secrecy to discuss world affairs away from public scrutiny. These secret societies are all well documented and their influence is undeniable now.

They are compartmentalizing everyone so we never attain a holistic perspective of this world, we are kept so busy with ourselves we never take a step back and realize the big picture. Like a jigsaw puzzle all these seemingly isolated issues like GM food, globalization, vaccinations, militarization, they all **seem** separate and isolated but they are **incredibly interrelated** and **coordinated** from the very top. A very coherent picture begins to form. And when you **read** their quotes and **published documents**, **look at**

their **actions** and their giant stone **monuments**, they literally say they want to depopulate this planet through eugenics, and are laughing at our **complacency**, what other conclusion could one reach?

Eugenics is very real, it is a very infamous, pseudo-scientific belief that some humans are hereditarily **superior** to others and that those considered **inferior** should be controlled, eradicated and sterilised. We see this very thing occurring today! We are seen as inferior by them, and we are **half way** through a **massive Eugenics experiment to depopulate this planet**. Within 3 generations we are expected to be 100% sterile, we are just now approaching the second generation and look at what has happened to us, humanity! Fertility is plummeting. **Look** at what we have become! **With your eyes not theirs!**

They want to reduce our numbers to maintain the fictional system, and they have attempted quite successfully at breeding a self-hating, nihilistic mindset in the general public. Some people feel we **are** inferior, we **are** scum, we **are** responsible for the state of the world, **we are** overpopulated and detrimental to this planet. This is simply not true. This is sophisticated propaganda by the same perpetrators of this detriment. They are shifting the blame on us and making us pay carbon taxes.

It is the system, **not us**, that is destroying our world! It is the **mentality** of the **rulers** of our world, **not ours**, that is the problem!

Eugenics is the doctrine those who **claim power** use to **cull compliant populations**. The plans have already been implemented and unleashed on society. The agenda is well underway. They are having their way with us because we remain ignorant to the true nature of the ruling class; we have been so victimised by the onslaught of chemical bombardment some are **physically unable** to understand! **This can all be reversed!** I **will** explain how momentarily but first we must **stop** the denial and **ADMIT** this is what is happening. The evidence is irrefutable, please read our **free E-book** at informationwarfareblog.com for a more detailed analysis.

How Societies Are Controlled

It is **incredibly easy** to manipulate a person's biology and perception to behave and perceive a particular way. They want us behaving like a **herd** of docile, ignorant, oblivious, sick, indoctrinated, conditioned slaves.

What makes this agenda so diabolical is they **not only** manipulate us biologically, but psychologically and spiritually. It is full-spectrum dominance.

The same governments who are **poisoning our food and water supply** (by design), are also **mass medicating the population with pharmaceutical drugs**, they control everything we see on television, everything we read in the newspaper, everything we learn at school. They control the money we use, they control history and through manipulation they control the populations of this Earth. They control human energy, they control human destiny. Everyone answers to them!

The ruling class has constructed the perfect system to kidnap young, impressionable minds and devastate them so that they may never understand exactly what they are a part of or how expansive this universe truly is. Least of all how **powerful** they are to affect it!

They are **robbing us of true consciousness**, robbing us of the wonderment of controlling our own destinies. They are using scientific methods with countless decades of research in the fields of anthropology, psychology and propaganda; we are seen as no more than bugs in their eyes. They hate us all because they are nothing like us. This is done scientifically. If you give these people an inch they take a mile.

They are exploiting our minds weaknesses with researched knowledge of how to do so. We have been brought up collectively in a **Matrix** to accept only **that** which can be interpreted by the 5 senses; to shift our focus from **all that is** and **all that could be**, to a more materialistic, and ego-driven perception centralized around the desire for monetary gain. This encourages sin and the ego and leaves us unfulfilled and ultimately isolated from each other, and thus in a weaker position, separated from the empathic and intuitive **knowing** we **all possess** but have lost touch with, and **require** so much.

The rulers of our world have no concept of empathy; to them their heartless actions are no more than the logical step in maintaining a scientific dictatorship. They believe there is power in evil. It is a disturbing mindset they have tried to instil in us all. In this system, money supersedes heart. Success supersedes principle.

And everyone is so **propagandized** from the television and **education system** they perceive **this society** as normal. By watching television you are **fully** subjecting yourself to the agenda, you are being assaulted with carefully constructed propaganda on various levels. This is so obvious for anyone who has the clarity of vision to witness because it is at a **child-like level**, and unfortunately **we too have been made to operate at this level**. **Because** our perceptions have been twisted, many fail to **perceive** with such clarity. Our species is designed to react instinctively to immediate violence; this is our adrenal response of fight or flight. We are not used to being slowly and scientifically corrupted over the course of generations. This is why things are as they are. This is far from a joke. This is serious and incredibly diabolical. It is what it is.

They tell you what to think, how to feel, what is going on, and **people believe it!** I honestly cannot believe people are so gullible. But I was once there as well. I once believed the lie.

The public often trust their perspective to be correct because it is seen by the **majority** of the population to **be** correct. But what is widely accepted as truth often claims such authority regardless of whether it is indeed true or not. For a time people thought the Earth was flat. For a time people thought the Earth was the centre of the universe. **Just because something is accepted to be true does not mean it is so.**

We cannot forget the **majority** of the population have also been through mass **indoctrination**, **mass-drugging** and **mass re-education**. **For this reason** our perspectives on reality could not possibly be 100% our own! Our lives at every level were influenced by these eugenicists, who have moulded us in unison from cradle to grave to think and perceive the **same way**. This was done during the most crucial stages of our development, when we are **most susceptible** and impressionable. Until we are conscious of the manipulation and can **admit it** and begin to **reverse** the damage that has been done, our thoughts and actions will forever be a reflection of theirs, and a reflection of programming and conditioning. We must each begin a process of unlearning, and relearning everything we know and following our hearts and souls true destiny with all this in mind.

Because there is so much more to reality than we know! So much more!

Some people tell me not to say things I don't understand, but, just because you don't understand what I am saying doesn't mean I don't. **I know what I am talking about.** You do not need any **credentials** or **any education** to understand this information. You don't need **money** or **status** or a **title** to **inform** others. To understand you just need a working brain. That is all that is required of you. And unfortunately, because our brains have literally been the focal point of this entire agenda it is very hard to break through the **lies** and show people what is in plain sight.

I believe this information warrants our attention and concern above all else, as we are all custodians of this planet and responsible, collectively, for its future and welfare.

We have been given a perception on reality which is not accurate. We live in a fictional system, propped up by faith alone. But it is **still JUST** an idea, and hence can be torn down in the blink of an eye.

The New World Order is nothing more than **abstract concept** and a **man-made construct**, which we can **de-abstract** and **deconstruct**. We can prevent this horrible future.

What is the New World Order?

World Domination truly is the name of the game. We see quite clearly today every nation marching toward a completely integrated and globalised society. They do this they must centralise decision making, control **all facets of society and not allow for any variables**. Our ability to think is one such variable.

What is the New World Order? It is the **amalgamation** of culturally diverse societies to one universal, societal norm. It is uniformity. It is easily controllable.

A global society may sound relatively harmless on the surface, but you must ask who is controlling it? Who is managing it? Where do we fit in?

Does easing control... include suppressing human potential? Does it include manipulating human perception? They must manipulate to control these variables. If they did not, we would see widespread **dissent**. An uprising, a revolution, a global renaissance would be **inevitable**. Were it not for the false perception we've been given and this artificial, toxic habitat we've been forced to live in, people **would rise up!** This film will attempt to facilitate this.

Globalisation seeks to **supplant** individual nations' sovereignty with an all-powerful global government, coupled with corporate control and militarized enforcement. The eugenicists in control have staged false-flag terror attacks **worldwide** and set the precedent where they have incrementally stripped us of our basic rights and freedoms. They claim this is in the interest of security; to protect us. But we are less safe when basic freedoms and rights are traded.

In the New World Order, **the global, societal norm - the status quo - is set by the ruling class** of the planet in an **integrated and secretive** way. The ruling class are not the puppets we see on television or in government buildings. **These** are decoys, distractions, actors. The real rulers are invisible and exercise

power from behind the scenes. They operate in shadows. They hide in the darkness. They play us like pawns. They are manipulators, scum.

With **researched knowledge of human psychology** and **how to influence our perspectives en masse**, and how to **corrupt** and modify our DNA, through an incredible amount of manipulation, literally bombarding us from **all angles** and **all directions over decades**, slowly acclimatizing **us all** to the **desired** world-view, the cultures of this world have now begun **forfeiting their beliefs**, perspectives and values in lieu of the ruling class's beliefs and the ruling class's perspective. This is evident today.

Every culture feels justified to perceive this world-view as a **universally valid ideology**. *They see this system as natural, inevitable, and beneficial for our species, and trust that those in charge know what they are doing and are elected fairly*, rather than seeing the **corruption** and **hell** this blind faith inevitably breeds, rather than seeing everything as the artificial social constructs they are, designed by the ruling class to **benefit only the ruling class**. **We are free spirits in cages**. **Money** is the tool of our enslavement.

What is Money?

Money, like this system, is just an idea. And like **all** things in life if they no longer serve us we have the ability to discard them. Money is a tool to perpetuate ego, **and like ego**, some **cannot** see **beyond** it! It is a **fiction** backed by human faith alone. Money is entirely worthless in reality. **Money didn't build this World! Humans Built this World!** With Energy we gave! We made all this possible, and some of us simply worked harder than others!

What if this same energy was channelled in another direction for the better of mankind? If we came from a position of love and co-operation **money would not be necessary**. Money is everyone's drive and motivation, and yet it is enslaving us all! What if **peace** was our motivation? What if **health** or a **clean environment** was our inspiration? People are so focussed on money and **accumulating** pointless junk to **fuel their ego**. We have been conditioned to believe this is the most important goal in life. The more we have the happier we will be. We have been taught to look **externally** for that which lies within!

We are being kept entertained on purpose, to distract us from what is really going on. We are given all these toys for instant gratification and given access to instant entertainment. We are kept so **busy** in our habitual routines we never ask the big questions or find time to investigate our world. We are kept running on the spot, in the endless, **futile** endeavor to **FREE ourselves from debt!**

Remember we are ALREADY striving for freedom in some way! Remember this! This is key!

We are **all** already actively seeking liberation. I am **proposing** we seek **liberation, Freedom**, through other, more palpable means. Right now, you are working tirelessly to pay off your mortgage, to feed yourself, to keep yourself alive. **But why must we pay to be alive?** Are we not **free spirits**? What is this fictional game everyone? Money is controlled by Eugenicians with an Agenda. **We spend our whole lives trying to free ourselves from money**, and yet, in spite of our best efforts, we wake to same tedium. Why is this? Is this by design? Is this actually slavery by its very definition? I see **billions of slaves** and a few thousand controlling them. **You cannot enjoy this servitude can you!?**

Imagine a society where things are done based on merit and the positive contribution to the world, where money was meaningless? A beautiful, **free-flowing experience**. We are **never** in control of anything in life; we are in relationship with everything. If we cannot live **without money** then we definitely need to create an **honest monetary system**. De-abstract the situation here. Money is printed out of thin air and backed by nothing, it is loaned to banks with interest, which we are required to pay back, but this is a mathematical impossibility! It is why we are in such debt right now! It is designed to collapse and take us with it.

We exchange these bits of paper with numbers on them, and usually there is some satanic symbol. I mean how ominous is it in the US they have a Pyramid with an eye looking at you, saying "New Order of the Ages" in Latin. **Excuse me!?** What the hell are we actually exchanging here!?

Human energy is the power we wield if we could only recognise it. Money, however, is an illusion we must lose faith in.

Where are we?

We are free spirits on a gigantic rock hurtling through the universe. We are connected to the Earth and the universe. It is an intrinsic thing, we are all one, all connected; we are part of this universe, Uni means one.

Where are we? We are at a pivotal crossroads in our history.

One path leads to freedom, prosperity, health, wealth and abundance we have never dreamed possible, **and the other; a cold, scientific tyranny** with wealth and power in the hands of a few. The choice is ours. **This could be the year we turn this all around**. It would not take long!

We each **share** this planet, it is as much **mine** as it is **yours**, and every one of us deserves a place here and deserves nothing but the best. There is still so much left to explore and learn! And if we want to explore it we really must reestablish the interconnectedness between all things. We really must change our perspectives!

The stronger our love for and connection to nature, and the closer our relationship with this Real world around us, and to those who inhabit it, the more we abandon the fictional system and start apply ourselves to reality, the better our lives are.

And the better our lives are, the better we feel, the better we **feel** the more likely we are to **better the world** through our presence in it.

And all it will take is one dedicated generation! The sooner and faster we can do something the more effective we will be which is why this film must become viral NOW. Unfortunately the only option we have is to create a complete paradise for every single person on Earth ☹. **I know it sounds horrible**, but we really have to stop paying taxes and stop going to work and instead create a gigantic, magical paradise.

Why are we here?

We are here to recognize the **situation** we face as **infinite consciousness** and the **ramifications** it has for **our species** and the earth and the universe. We are in this mess because we remain willingly subservient to this evil and we do not unite under a common idea. This film is the opportunity to do so!

The meaning of life is easy; I believe we are here **primarily to create**, and to **create something better!** Don't you think? In whatever way we can. Through whatever aspect of society you can better through your contribution and presence. We are definitely **not here** to slave away for someone else, to earn money and to let eugenicists control our lives and direct our destinies.

*We are here to remember who we are and where we are. We are here for **something**, to serve a purpose, we **know** this deep down, but **WHAT IS IT!**? We are here to **realise our potential, to follow our heart and soul!** We are here to recognise we are in this same situation together, to recognise we literally manifested at this **time and place** because we **were meant to**, energetically, because we chose to be here, because we have something to offer the universe, **some necessary component**, something to contribute to this moment in history which we are in right now and **we are here** to create something better in spite of it! And they never want us realising this!*

This **connection** is of being wrought out of all of us. They **divide** and **rule us**.

We are here to create. Each of us! And when we die, we hope to have contributed something positive and left our mark on the world, leaving it in a better state than when we began. This is because we understand **instinctually** we live on **through** the **species**; our blood in our progenies veins, as our ancestors are in ours.

The consequences of our **complacency with evil** are becoming **increasingly noticeable**. Ignoring it further is **not the solution!!** **Burying our heads** under the sand will **only** get us **killed**. These eugenicists have just claimed positions of authority. That is all they have done! No one is **granted** authority by the world or given power by the universe; one can only claim it and hope that others believe in it.

Every one of us has the ability to claim power. They are no more powerful than you or I. They are just more brazen. They are conmen playing a **congame** of their **own creation** with their **own rules**. We have been born into this, and told because of abstract words on paper written by **literal freaks**, that we must obey.

This is because this system is seen as **healthy** by default and anyone who **deviates** must be insane and put back in line. But **could it be** we just accurately perceive the faults, flaws, hypocrisies and immoralities within society? Are we not adapting as a sign of **sickness**? Or is this a actually sign of health? **It is no measure of health to be well adjusted to an overwhelmingly sick society.**

And what we face is sick. None of it is real everyone. It's not tangible. It's fear-based mind control. We are living in a fictional environment. This **artificial, controlled** habitat has usurped and replaced that which is **natural** and **free**.

We **roll over** to the perceived “immensity” of this system because we **believe** it is real. We **believe** we are **just one** person; we cannot change the world, right? **Wrong!** Who else COULD!? You are not JUST one person. You are **THE** one, **with every ONE else**. This system only appears unbeatable because it has been **designed** to appear this way.

Everyone has been stripped of their power. And those who have been given a tiny bit of power over others **in the way of authority** have run rampant inflicting themselves upon the public as a showcase of dominance, the catalyst of which is **insecurity** and **powerlessness**. And who **stripped us** of our **power** and **security** everyone!?

This is why the ruling elite do what they do! They need to display dominance. **They** need to write rules and enslave humanity because **they** are powerless! They **rely on us** remaining ignorant and unenlightened! They **rely on us** accepting the status quo and complying! We hold **all the cards** in this game! We outnumber them by the millions! We just need to realize their biggest strength has been **dividing** us from **one another** and **from ourselves**.

No life-form on Earth can benefit from the implementation of such a system. It makes **no sense** whatsoever. And yet here we are...

Can we agree this world needs work?

Do you really think this world is the best it can be right now? Is this system the **best** we can think of? Is it fair? Is it reasonable? Does it provide for everyone? Are we going in the right direction as a species? Why are we granting them the right to steer our evolution?

The further we alienate ourselves from nature, the more we lose our instinctual senses and traditions. And the more we allow them to **get away with killing us**, without challenge, the more they are going to attempt to get away with killing us. It is their nature. And the further we isolate ourselves in **fear** and **dependence on this obsolete system**, by remaining ignorant to the **true** political paradigm, the easier we are to control. **The easier we are to control, the more we allow ourselves to be dehumanized...** which makes us that much **easier to kill!** Do you see what is going on yet? Is the big picture more coherent to you now?

What are we here to do?

We are here to REMEDY THIS SITUATION and CREATE OUR POSITIVE FUTURE!! Positive thinking by itself is not enough to attract what we want; we must combine this with positive action!

We are here to vanquish the illusion and **co-operate with each other** to bring these madmen to justice! Their actions and words are in fact **heartening**, for they would not fear us, and they would not attempt to systematically weaken us, unless we could *actually* do them any harm.

Systems **can change!** **WE must** change them. But things continue to remain the same because **we** continue to operate **within** the system to attain **freedom from it**. The system cannot ever provide such a thing. We must lose our faith in this system and direct it elsewhere...

Ask yourself, why **couldn't** a better idea arise? Out of the **ashes** of this **current paradigm**? What if it already has!?

We are by no means subject to these laws they have given us. These laws have no bearing on reality. These laws only undermine natural law. They are words on paper at the end of the day. This is entirely fictional. It is ultimately **us** who put **faith** in these words. Belief! It is ultimately **US** who grant them their power.

And through acquiescence we allow this to continue.

We must dissent, we must revolt. Our very lives are at stake! But we **cannot** go out **wildly** and **violently take this world back**, or else we will end up in a **chaos**, which is exactly what they **want**! They are relying on it. We do not want 7 billion people to stampede without order and without a goal.

Success is going to require **strategy**. It is going to require optimism and positivity. If we are going to break these chains we are going to have to do so **suddenly**! **This film** will give us the **opportunity** to do so! The faster the better! We must each be **unwilling** to compromise, and we must demand **others rise up with us**! And we are going to have to rise up in a way we are not aiming blindly.

We cannot completely abandon civilization and society because these things already exist, we are going to have to restructure how everything is managed and powered and we are going to have to follow some basic design principles that work **WITH** nature and provide self-sufficiency with little effort. The people are going to have to be convinced that what we are proposing will bring a much needed restoration and the people have to be invested in this idea themselves and make it the priority!

People have to take this idea on board as though it was their own and bring the restoration themselves, and with a community behind them this will be incredibly easy. **Community** is the **common unity**, so we must ask, what unites us? What is our common bond? **Freedom**! And this film is a weapon itself.

We must each put our individual power into this idea, like a spirit bomb slowly gaining energy with each person's contribution.

How do we do it?

Ultimately there is **no avenue for salvation** other than us consciously awakening our consciousness, our right brains, participating in a 21st century renaissance and creating heaven on earth in spite of the hell that has ensnared us.

I have briefly outlined how incredibly corrupt and harmful society is. **You now understand we cannot continue down this path**! Sometimes going backwards is going forwards, if we continue going forwards on this road of death we will all die.

The answer is in **understanding** the **problem**, **admitting** it, and walking the brighter path of self-enlightenment. Enlightenment is a destructive process but it does not have to be negative. Enlightenment is the complete eradication of everything we have been told is true. This is why the process appears so daunting to so many. But to remain unenlightened will pay the ultimate price. To not

take advantage of this opportunity and utilize the potential of our **conscious experience** is such a tragedy of life!

We must let our hearts and souls serve as our compass, our higher self our consultant and our mind our facilitator.

The problem is our oneness; our affinity with all that is, has been lost! **It has been bred out of us in lieu of a much more limiting, compartmentalized and self-destructive perspective on reality.** Humanity is riding a **rollercoaster straight to hell**, and has been for **some time now** and yet **so many fail to question** the direction this ship is sailing!

The problem lies within, within us all, the problem is systemic. It is a result of the **biological manipulation, psychological programming and mind control** which we were each subject to. The problem is all pervasive, all around us. It is the Matrix, the Man, it is the System of control. It is evident in the automated responses of the public, the cognitive dissonance, the learned helplessness, the Stockholm syndrome and the habitual behavioral patterns we display in the face of it all. The problem is the pride associated with protecting our egos and the fear associated with challenging the status quo.

What keeps us in fear? Fictional systems! Who perpetuates these systems? Us!

The problem ultimately is in our acquiescence to tyranny and refusal to participate in our own salvation and in our own lives. The problem is our **inability** to recognise **good from evil**, as we have been **taught** the **exact opposite** it seems. **Stand up** and you will **surprise yourself** how powerful you can be! Share this film and you will be amazed what we can create.

We must collectively abandon this tunnel-vision prison we have been given, and expand our minds to a more peripheral, holistic perspective that encompasses all. We must empower ourselves by letting go. Holding on is what causes the suffering. Only by addressing this problem with the **right mindset** in the **right energetic state** can we remedy it. Like a treatable disease, it can be dealt with once you know what it is, or else surrender and allow it to ravage your body.

It is really up to the individual to awaken themselves. No one can wake you up but **yourself**, it must be your decision and it must be because **you know it is right**. In the same way a flower blooms, one can only observe with great anticipation and hope.

Just think of the possibilities of this larger reality and our potential to explore it, imagine if we were **not** subject to eugenicist's control. What would we be capable of **without** these poisons? Imagine your life **without** this manipulation we were exposed to, **what life would be like!? What if there was more to life than what we have been led to believe?** More to it than this embedded, taught, programmed and ultimately **limiting** perspective we have? I think humanity is capable of anything. I think we are pretty magical in reality, and I can guarantee you there is more to life than this mundane pattern we follow.

The potential of human consciousness is infinite. But I will take it further, the potential of unadulterated, undomesticated human consciousness. Well that is truly infinite!

So how do we regain our unadulterated minds?

Diet

I remember back to when I used to be in the position **so many are today**; there was a psychological and biological barrier preventing me from exploring the depths of my consciousness. You could attribute it to laziness or fear but it was something more than that, it was an **incapability to comprehend**. It was an unwillingness to understand. It had nothing to do with the information and all to do with my mindset.

What was the catalyst for my awakening? It was recognizing the correlation between what I ate and drank, and everything I exposed myself to, and how these things directly affect my entire perception and experience of reality. And realising every facet of this society is controlled by the **same Eugenicists** with the **same Depopulation Agenda**.

We have been under chemical attack for some time now, and it is imperative we heal ourselves biologically, psychologically and spiritually and it is critical we begin the process NOW, while we still have some semblance of a free society and while we **still** have the ability to affect **positive change**! "Just go for it!" Together it will be 100x easier.

The answer to De-Humanisation is Re-Humanisation. If we want to regain our cognitive functioning and our ability to think, interpret, recognise, respond and act then we are going to have to understand some basic principles and we are going to need a nudge in the right direction. This is that nudge. These are those principles.

The quality of the food and water we consume directly impacts our health and mood.

Most tap water contains fluoride, chlorine, toxic/heavy metals, psychoactive drug residues environmental toxins and radioactive isotopes that are intentionally placed in there to subdue the population. Fluoride calcifies our pineal glands, which is our window into the spiritual world! Fluoride was of course first used in concentration camps to make people docile. Naturally we do not want this inside us. It is like ingesting sunblock to protect from the sunlight, its very purpose makes no sense.

Food is energy. The food you eat is what your body uses to fuel the creation of new cells.

Alkaline foods promote health and wellbeing. You will want to research **alkaline foods**. Many of the foods we eat are **acidic**, overconsumption of meat and processed foods create an acidic environment in our bodies which fosters disease. Most of us have unknowingly been fuelling our cells with toxic foods. Sickness has become the norm in society. Diseases have become like trophies people wear. Our cells **crave** nutrition. Our cells crave **vitamins** and **minerals, carbohydrates, fats, amino acids** and **proteins**. Our cells crave diversity! Our cells **want** to function perfectly! If we fuel our cells with **poison** our cells grow to be weak. These weak cells compromise our internal systems and thus diseases flourish.

Doctors are not going to help you; they are trained to prescribe pills to suppress the symptoms of our illness. But this is not what we want! These pills have devastating side-effects. Their **interest** is in keeping you unwell, because you are a customer and sickness is their business! Who are you going to trust? The Pharmaceutical Industry which has been around for a few decades and run by Eugenicists who want to depopulate? Or time-honoured, traditional herbal remedies that have been passed down

for millennia? The reason everyone is sick is because of the society we have constructed. Pills are not the answer. We want the cure! We want cellular regeneration, we want detoxification!

Your cells DO function properly when they are given the right foundations to build upon! This creates a functioning, happy organism.

When one is filling their bodies with alive, fresh, organic, living, fruits and vegetables and herbs, and eating animal products from animals who have not lived a hellish life of squalor and fed gmo grain, then our bodies significantly function better, we perceive reality brighter and our cells **do appreciate** the nutritional bio-availability. This creates a more fresh, alive, organic you! The transformation is truly tangible!

With so many people suffering at the hands of these toxic additives placed in our foods, we all desperately need to undo the damage and revitalise, detoxify and regenerate. YOU want to be thinking “What **is** possible? What **is** achievable? What can I BE without these poisons?”

A raw food diet is a truly viable and effective solution to regenerate! It is the way out of the lethargic, cloudy haze for many people. A detox on 80% raw foods and potent medicinal herbs is the best option I can find to cleanse the body of the lifetime of toxic poisons. I believe it also awakens the connection to nature and your spiritual self. You will want to look up a guy called Dan Mcdonald the Life Regenerator on Youtube for valuable information and insight!

I recommend that everyone undergo a **month-long** raw food detox at the very least, incorporating as many organic vegetable juices, organic fruits and superfoods as you possibly can and switch to drinking purified water. The fluoride you are drinking will ensure you **do not** so you must **rise above it** and **DO so!** Do not let it win!

It goes without saying we want to make sure we eliminate **all** the Eugenacists’ poisons from our diets **immediately!** This is even more important than eating healthily! We need to be able to **perceive reality with clarity!** I include television in this list of poisons. We have been addicted to these things, so to ween ourselves off them we must find **alternatives** and I would suggest becoming active in reality is a far better and more fulfilling use of your time!

People these days are so caught up in finding a scientific cure for cancer they **refuse to look** at the root cause of **WHY** cancer is so abundant these days, **how many cures** are actually available and **how simply** this trend can be **reversed** when an organic diet and healthy lifestyle choices are **cultivated!**

This is not a far out idea everyone, organic food **is the norm!** We have just been conditioned to accept poisons over a few short decades.

Fast food contains so many chemical additives it is really not funny. These are chemical weapons. We all know fast food is bad, but just how bad is it?

What you need to read is the ingredients list; this tells you what is really in the food we are given. You look at the picture and you see a burger, you see a bun and lettuce, it seems harmless but just **WHAT IS IN THESE FOODS?** GMO, MSG, Fluoride, Soy, and the list just goes on and on. These are chemical weapons. Literally Monsanto is the company responsible for Agent Orange. In the 90’s they switched

focus from **biological warfare chemicals** to **agricultural biotechnology**. And *NOW* we trust them with the **majority** of our food products and seeds. An estimated **60% of the worldwide** food supply.

And people wonder why disease is so prevalent in this day and age? Thankfully, you can avoid all this by eating a diet of fresh and organic fruits, vegetables, wild edibles and organic meats!

When you eat 80% raw organic fruits and vegetables, your body can start eliminating the toxins that have residually built up over a lifetime. As well as filling you with abundant energy, raw food helps establish a connection with yourself and those around you. It induces higher thought processes. A lifetime of poisoning and malnutrition needs to be **undone** here!

Some people eat **so little** fresh produce they are essentially starving themselves. People aren't eating the **nutrient-dense** foods their bodies need so they keep **eating and eating** trying to fill the void. When someone starts eating a raw food diet it is very easy to shed excess weight because, all of a sudden, they are fuelling their body with the appropriate nutrition, and just don't feel hungry anymore. But it is important we **MOVE** these bodies of ours as well! We must begin basic training and exercise! Together!

Conventional produce is often picked weeks prior to your consuming, and your body has to combat all the toxins sprayed on it. Organic food has far more nutrients than conventional produce, which is drenched in pesticide, herbicide, and is grown in synthetic fertiliser; all which are detrimental to the human body particularly after a life time of use.

A big deterrent to eating organic produce is that it costs too much. This is of course by design it is this way. The reality is you can either pay the price now or pay the hospital later. It is as simple as that. You can live a fulfilling, enriched life or a tortured, lethargic life with a humiliating death. The future we will create will **solve this dilemma** but in the **mean time** we must make the switch! And fast! Act Now!

What this World Means to Me

I love the infinite potential for every possibility. **I love** how complete strangers from **completely** different backgrounds can have profound impacts on each other's **lives**. **I love** how a song can take us to a different world, how a thought can take us to a distant memory. **I love** how we can take our brains to universes unseen and unspoken. **I love** our endless strive to learn, our endless strive to **create**; art, music, **life**; to **create** something better. **I love** the endless endeavour to be **more than we are**. **I love** how one person can change the world if they want to. **I love** how every action, however trivial, like the fluttering of a butterfly's wings, together shapes the future of this world.

More than anything, **I love** seeing people laugh, I love watching people smile.

The future is ours; we cannot deny this agenda anymore. While we linger in **fantasy and delusion**; we are still unable to **postpone** the **inevitable path** which **fate** is prodding us along: **to meet our destiny, rather than cower from it**. This tyranny must be met by its victims, **marching as one**, and stopped.

Is that verdict any worse than the **stalemate** we now endure as we **wait for certain death**?

Look at how much they have dedicated to restraining the human spirit, confining and withholding the human potential. This is the symptom of an insecure mind. They know just how powerful we are, individually and cumulatively. Their power is in **you** not knowing. Their power is in **you** remaining in fear.

I don't have all the answers but I know the direction we are going is **completely wrong**. **Completely asinine**. **Completely unnatural** and **completely redundant**. I **know** this system is obsolete and have a better idea to replace it. I know that with our combined powers, we can **completely** attain world peace. Together we can prevent more unnecessary pain and suffering. **De-abstract everything** you see or hear.

We are being given the **choice** whether to serve evil, whether to serve a corrupt and failing empire which seeks only to dehumanise and cause harm; or to **challenge the fates for another throw against our destiny**. The world **truly** is a stage. And we are facing our first bitter taste of the illusion.

Humanity as a community is a **stronger** force than all the cumulative forces of those who seek to divide, separate and conquer. It is **stronger** because we have something worth fighting for, trying for. Something worth living for, dying for. It involves the participation of **both heart and soul**. No amount of manipulation can take these **truths** away from us. And that is why I know we will win. We just need to **realise** it!

Life is not about accumulating information and regurgitating it on a piece of paper. **Life is about applying knowledge and wisdom to reality**. **Freedom** is not something you can take for **granted**, you have to work at it, apply **everything you can** to it. Have you any idea the **paradise** that awaits us? We need to act **NOW!**

The possibilities of **NOW** are limitless. **All you have is the moment**. **NOW** is freedom. Like water, **you** can be flexible to **change with the ever changing**.

The answer truly is within **YOU**. **Change** comes from the **inside out**, and starts **not by attacking this world externally, but by changing our attitudes within**.

How much more abuse will we take, humanity? Where is our line in the sand? Where do you draw the line?

This is a tremendous **opportunity** for the human race to break free of their shackles. To get off their knees. *Life often gives us our greatest gifts disguised as our worst nightmares*. If you think something is impossible, you will make it so. *Pessimism blunts the tools we need to succeed. Optimism spreads like wildfire!*

Protect yourself with information and health. Accept responsibility, stand in who and what you are and **use this power wisely**. Be responsible for your own life and take responsibility back from the prying hands of tyrants.

Giving up responsibility goes hand in hand with giving up power!

If we remain ignorant, it is likely we will find the next few years very difficult. With no perspective on what is actually going on except that everything is going crazy, and the uncertainty of what will happen

next. How can a society expect to function when its very basis has crumbled? It won't. Unorganised anarchy will abound, Martial Law will be declared and people rounded up. By then it will be too late.

People say they cannot act because they have too much to lose or too much invested. It is this fear of loss that keeps us in **servitude**! Is **not** the loss of our **liberties** and **lives** and **health** and **our world** and **our futures** more important than **our jobs, money, house, popularity, beliefs**? If something is **wrong**, we must do what our hearts tell us is **right** to remedy this situation, **in all our power, with all our efforts**.

The globalists seem like they are invincible, but it is an act. They know how powerless they are when the people finally get motivated; see them for what they are, and stop believing in them. **They know how ineffective they are when the people finally unite and start speaking the truth!**

Do not fear failure or death. **Death is not feared when life is lived.** So let's live it!

The Power of Ideas

Ideas are extremely important in **shaping society**. They are bulletproof. **Ideas** preface every decision in life and they transform our world. A gun or an army can never be as effective as a **great idea** because an **idea** can spread without limitation and permeate throughout society. **A great idea** can be the sole basis for fundamental and radical change. **A great idea has the ability to propel enough people with enough momentum to stampede en masse.** **A great idea** can spread like *wildfire* in the minds of man. With **ideas**, we can make changes that **last**.

I am not suggesting a violent revolution here because that would play into their hand. I do have an idea though. This idea is definitely revolutionary compared to the status quo. It is definitely drastically different from everything around us right now. It is by no means my own, but I believe it to be the **next step** in our evolution, the natural progression of our species. It would set the framework by which we can literally reach for the stars and beyond. Do you want to see humanity thrive? Do you want to see humanity ascend into the future and evolve into an amazing heart-centered species!?

There's a lot to be said for picture power and I encourage you **now** to create a vivid image in your mind of something you **want** or desire or long to achieve. Visualizing our positive futures will mark the start of a process that will bring about great positive change and facilitate our evolution.

Is society today civilized? How can this world be civilized? **Look around you!** Do you want to create your own personal Heaven on Earth? I will outline how to do so. This is where the fun part begins. This is where you come in, personally. Pay attention.

Permaculture

Permaculture is short for '**Permanent** Agriculture'. It is more than a style of gardening; it is a philosophy, a future, and our best hope at survival. Permaculture systems will allow us to inhabit this planet forever. It is the manipulation of our environment, while co-operating **with nature**, drawing **inspiration** from

natural ecosystems and forest ecology, harnessing nature's strengths and patterns and shaping them to provide abundance for all while caring for both the earth and its inhabitants.

Permaculture encourages us to be resourceful and self-reliant. It is self-sufficiency. It is not a dogma or a religion but an **alternative system** following beneficial ecological design. It will help us find solutions to **all** problems facing us - both locally and globally.

Permaculture will set the framework by which humanity can evolve exponentially. It is a practical method of developing harmonious, efficient and immensely productive systems that anyone, anywhere can grasp and utilize. Nature provides! Permaculture is incredibly easy to do so!! And incredibly rewarding!! The more people who do this the more successful we will all be.

Permaculture food forests consist of multiple layers of food producing plants that all have beneficial relationships with each other. This is also known as companion planting. Plants help each other out by repelling pests, attracting predator insects, improving the growth and flavour of plants and fixing nitrogen in our soil to repair it. It is a tangible solution every single person can participate in once we **secede from** this system and start **helping each other create this future!**

By efficiently planning how we manage our resources like food, energy, shelter we can be **more productive** for **less effort**, reaping benefits for our environment **and ourselves**, for now and for generations to come. And it is not hard!

The reason humanity is in such compressed and condensed cities right now is because of the system's design - to ease control, this is **unnecessary**. The majority of the earth is still uninhabited and just waiting to be utilized! Permaculture **can** exist in urban environments however, through incredibly effective techniques. It caters for everyone in any situation!

Once established, **permaculture** gardens are **self-sustaining!** These environments almost look after themselves! And it will only take one **Decade of Dedication** to establish these and completely heal this planet and begin a cycle of incredible growth if we can commit to it! That's how powerful this idea can be with **your energy**. It is truly the change we all wish to see brought to this planet. I guarantee it.

The goals and priorities of permaculture match the **core requirements for sustainability**. Our current society is unsustainable. We are going straight to **hell** when we **could** create Heaven. All of us must do this. Permaculture heals the planet above and below, and feeds us healthy organic foods while simultaneously cleaning our air and enriching our lives.

Permaculture incorporates wildlife and plant-life to support **all** life. These gardens can be tailored to your particular liking, with foods you **personally love** and **designed in a way you personally want**. It is creation and art and love and all our **core values** rolled into one! **All the worlds' problems** can be solved by implementing permaculture gardens! This should give us **confidence** in our futures!

With permaculture we won't need money! We won't need to worry about a food shortage crisis! Without dependence on money for food, and with access to free, organic, biodynamic, nutrient dense, abundant fruit, vegetables, nuts, seeds, greens, herbs and medicinal plants we can put our attention on

art, more efficient energy devices, revolutionary new technologies, helping each other, enjoying life **free from slavery**, following our **dreams** and getting **healthy** while evolving as a species!

Permaculture is a better system! If we can all simultaneously commit to it we will see extraordinary results!

This is the ultimate priority for us to focus on at the moment. We need to establish permaculture food forests **now** so we can stop wasting our time working for corporations that are destroying this planet **just to get money** to buy **food** which is **poisoned** by the **very corporations** we are working for! We cut out the middle man!

Stop putting your energy into a repeatedly **destructive**, violent and oppressive system and liberate yourself. You can start this right away, it is very simple!

I recommend watching Geoff Lawton's documentary "Establishing a Permaculture Food Forest"

If we all work together we can grow forests worldwide and bring peace and harmony to this planet and our species. We take the reins of our destiny. No longer can we think **just because we earn money and work a job we are contributing to society and we are good citizens** and we have the right to sit back ignore reality. Reality has caught up to us and cannot be ignored any further. We must stop complying.

Permaculture can be done anywhere on Earth and can re-green salinized deserts and transform them into fully food producing permaculture forests. This has already been demonstrated with excellent results; look up "re greening the desert."

Standard agriculture is failing us. It doesn't work! It destroys the planet! It is unsustainable! The soils are depleted, dry and devoid of nutrients. The plants grown in these soils are nutritionally void. We are eating empty, dead food and we are **becoming empty and dead!**

Farmers growing GMO. People serving GMO. STOP. Stop or you are an enemy of humanity and a traitor to mankind. **BUT you do not have to be! Why would you want to be!?** We can all turn this around! **Just do it!** Destroy all your GMO crops and start establishing permaculture NOW! It will save your land, save your health and save your soul.

Just because the current paradigm is collapsing does not mean the whole world has to go to hell with it.

Establishing permaculture food forests will give us a sense of prosperity that has not been experienced nor ever dreamed possible. Think of the Garden of Eden worldwide. True abundance and prosperity and technological advancement can be achieved when we actually **stop and think** about **what we are doing** instead of **just following orders** blindly.

The Solution "Just Do It!"

I cannot stress to you how real this is and how immediately we must take action because we have almost run out of time and it is **incredibly dangerous** to sit back and do nothing! When this film is finished your **instructions** are to **share it everywhere**, and while we are still imprisoned in this system, I

want you to take advantage of it and locate and purchase AS MANY HEIRLOOM, ORGANIC SEEDS AS YOU CAN, for every season. I want you to share these with every one, I WANT YOU TO BUY BAGS OF SEED RAISING MIX AND AS MANY FRUIT TREES AS YOU CAN, EDUCATE YOURSELF ON THE KEY PRINCIPLES OF PERMACULTURE, AQUAPONICS, COMPOSTING AND PROPAGATION AND BEGIN THE PROCESS NOW! Buy as many rain water tanks as you can! Print off as much information on these subjects as you can, NOW! Start a compost heap NOW! I want you to propagate everything around you NOW!! Rosemary, Grapes, Berries, Figs I want you to **continue** sharing this **film** for as long as it takes, until **every human being on this planet has seen it** and I want you to take it **personally** if they refuse to watch!

We will make the script available for download at informationwarfareblog.com if you wish to translate it into your own language and upload it to Youtube!

I want you all to stop paying taxes and I want everyone to stop taking this abuse. We need these globalists out of power, and we hold the power to do this if we can unite worldwide. The globalists are our common enemy. I also want everyone to **prepare for the worst** and purchase and stockpile as many weapons as they can and not be afraid to use them if they **escalate** the situation; **I disagree with murder on all counts** and do not suggest anyone **instigate** any violence, but we may need to defend ourselves if they cannot see reason. **We will make sharing this film** and the **idea of freedom** our true weapon and **continue doing so** until we have achieved global **victory**. I want you to go out and buy 100 DVDs and make copies and distribute them to people. I want you to ask your local cinema to screen the movie. I want you to purchase **bulk organic grains NOW!** I want you to rise in consciousness **NOW**. I want every single person to start growing permaculture gardens NOW and I want you to get **everyone** involved in this process! I want you to recognize everyone as EQUAL to yourself, and live under one rule and no other – ‘Do no harm to others!’ I want you to **share plants and seeds with each other to establish the local community**. I want each of you to be **leaders** and contribute positively and **be your potential**. I want you to respect everyone and accept no less in return. I want people to band together in the common understanding **this system** is corrupt and Freedom and permaculture is our brighter alternative. We need this film, this idea, to work because it can and must! It is time we take this world back!! It is time we shed light on these Eugenacists who seek to kill us all and stand as one!

Everyone serving poison, stocking poison we must **ALL** suddenly **STRIKE!** In unison! Everyone must **IMMEDIATELY** use ALL THEIR MONEY to get OFF the system and apply Permaculture! Anyone continuing this system has blood on their hands and is for all intents and purposes an enemy of humanity. The same energy creating this hell can be used to create heaven. Your actions count! All of us must hijack everything and **put it all on the line NOW!**

We need to **not comply** with our extinction any longer and instead participate in our salvation! Human energy is the key. Your personal energy is the key. How much power you give to this will determine the result! **We need to question** the motives of these psychopaths in charge, and look at their actions and deeds for what they are. We need to evade all the Eugenics poisons, and heal everyone through a detoxification process on raw, organic fruits and herbs and thus regain our unadulterated minds. This will help us **perceive reality organically** and **give** us the **strength** and **clarity** to bring about this positive change. NO fear! We must ensure every human being participates. ALL police and ALL military and anyone SERVING evil **IS A SOUL JUST LIKE US, so ask yourself What the hell are you doing?** I am appealing to your humanity here, you must TURN on your masters and we MUST arrest those

responsible for all this bloodshed and loss of innocence. It needs to happen suddenly, there must be a CONSCIOUS awakening and the TRUE CRIMINALS need to be taken by surprise which is why we must act **fast! Can we do this in one week!?** WE MUST **ALL** TAKE BACK CONTROL AND WE MUST **ALL** TAKE THIS SERIOUSLY AND WE CANNOT SETTLE FOR ANYTHING LESS THAN FREEDOM AND PEACE AND LOVE BECAUSE WE CAN HAVE THESE! This system fosters no care, no compassion and no love, just greed and narcissism.

Everyone must realize there IS a BETTER way! Everyone must use their **platforms, be it Youtube, Facebook, Television, Newspapers, Magazines, Lecture Halls, School, Businesses** to start **speaking this without** FEAR of the consequences and you must do it IMMEDIATELY. Everyone must upload this film to their own channels and it must spread like a virus! The more celebrities who promote this the more successful we will be! **The problem and solution** must be broadcast on all media by everyone! The motto is "JUST DO IT!" The public must be compelled to follow a **new trend other than death**, because many of them will not stand up unless everyone else stands up with them.

It would **only** take ONE dedicated generation to completely transform and heal this world!! **We're it! We have a spiritual obligation and a moral duty to act! It sounds surreal but it is so real!**

At the moment our generation is essentially sitting back in **fear, ego** and **chemically-induced confusion**, and we are allowing reality to be turned into a violent, barren wasteland with an all-pervasive, surveillance control grid. And **no one cares**. And **unfortunately** to understand anything you have to first **care enough** to understand or else you will simply **ignore it**. So I am asking you to **care** about **life** as well! We cannot live in this world anymore! Freedom or Death, which is it!?

Ultimately GO WITH THE FLOW, The natural rhythm. **Do whatever you feel is right**, but I **do strongly suggest** participating, everyone! If you are literally unable to then you can say no, it's okay, I understand. But if you **can** offer something, PLEASE **DO** because **NOW** is the **BEST** time to make your voice known!! Do **not** let another opportunity go to waste humanity! We need peace and love **now more than ever!**

We cannot continue this system anymore and comply with its rules! We haven't got time to joke around anymore! This is our last hope!

Right now we allow **everything** to be regulated and permitted. **Everyone** is in debt, depressed, many are obese, **all** are slaves, GM crops are taking over nature, more and more we are relegated into compact cities. Our population is being sterilized covertly and we have been addicted to toxic poison! The word poison has lost all meaning; we have truly been **desensitized** to a frightening degree. We are dependent on Government for **everything** and we are **kept divided** from one another, **fighting** amongst **ourselves**. The plan is to dehumanize and depopulate. This means the end of humanity as we know it. However, **this will only happen if we people allow it to!** EVERYONE must stand up together.

Some say "*This is just the way things are,*" When in fact, **it is** the way things have been **steered!**

Some say "Poisons are **everywhere** these days and you can't avoid it." That is true but we must not accept defeat!

They think “I’m just one person, how can I change this? What can I do?” That’s where this film comes in! **What can you do!? What can’t you do!? What aren’t you capable of!? And why aren’t you capable of it!?**

This Eugenics **system** is the Titanic and we are all sinking with it. And the water is a cold, dark, icy grave. This film is the **last life boat** and there’s room for 7 billion of us if we want. **We must stop looking for someone else to save us.** No one will save you apart from **yourself**, and by sharing this film we can begin this process **worldwide**! It is that simple!

It is so much easier together! United! **This is our opportunity.** The **only people** who can remedy this are **us.** We have literally manifested at this time and place to do so! That is why we were born!

We have to take a **leap of faith** and abandon the system we know. Permaculture is a solution humanity can rally behind; it is easy, **feasible, effective** and **prolific.** We need this solution to resonate with every soul on the earth. We need to ensure this is a success because **it is our bright future!**

We need humanity to believe in this idea, to look past the superficialities of this film to the core message and intent.

We need to unite in this idea. All that is required is a boost in faith and confidence world-wide, persistence and dedication and a **refusal to compromise to the status-quo.**

What does not serve us will be torn down because its foundations have no integrity. Evil is held up by us, we have the power.

We are one. Permaculture will reintegrate humanity back into the harmonic existence with nature. This universe is all about energy. It is spiritual. We need to shift our subjective perspectives and see life with fresh eyes. *We have to change our perceptions on reality itself everyone! And this has to be done globally. Everyone has to participate and get excited! **Excitement is the opposite of fear!*** The New World Order is fundamentally about the distortion of perception and the suppression of **that which is possible!**

*So empty your mind! To even **imagine world peace** being possible, we have to **imagine a life radically different** to what exists NOW!*

*The more you can **detach from the current system** the easier it will be to adopt a new perspective and imagine something different. We must begin the mass exodus from **tyranny** together. We can if we do.*

*This current system **HAS** set the scene by which we can attain this next step in human evolution and human consciousness, and that I appreciate, **BUT** it no longer serves us as it was designed to.*

*It wants us dead because **we** have become a detriment to **it.***

*But you have to weigh up which is more important? **The system** or the **Future of the human race?** Humanity, is life about perpetuating our planned extermination or creating something better for us all?*

*The system doesn’t need us anymore, but we are also done with the system, **aren’t we.** It’s done with us and we’re done with it. **But the fact remains, it still exists and we’re still here.** So there is this clashing going on right now!*

*Many people want out; **people want** self-sufficiency, **people want** freedom, they want **peace love, abundance** and **this goes without saying!** This is what everyone is already striving for but in the **wrong way**; striving within the confines and limitations of the system! This is futile.*

Imagine your heart's desire coming true. This can be done. I assure you! One generation!

*All we need are the right foundations, and **we must commit** to laying these foundations! The responsibility is ours. Your **personal** **doubt** is the only barrier preventing our entire species from ascending. We cannot continue to do the same thing we have for countless years in the hopes we will create something **better**; or something different! **This is madness**. We cannot continue to do the same thing in fear of the consequences of what will happen if we **do otherwise**. WE cannot live in this fear anymore! It is illusory!*

We must become confident in our own ability to live in a free world and create an environment that will allow such a thing. And if you are not confident it is probably an indication you are **engrained** in this system of control to a dangerous extent. This system is one of fear, debt, disease, ignorance and slavery. It is one of Poison and Paranoia.

So let's free ourselves! We can create our positive futures right now. This very moment in time and history. THIS IS IT!

So we now all know every problem in society stems from the system itself. **The system is fictional**. Our perception on reality has been embedded by Eugenicians. Every one of us is not in control of our own destiny. Every one of us is being poisoned and controlled. Most of what we have been led to believe is false. Money is an illusion and the universe is energy. It is human energy and love that is the real force, and with this energy directed, world peace and abundance for all is **truly possible**. **Great! That is the situation we are in in a nutshell!**

If we could commit to this threat against our species as one, **united** under freedom, then we could end this all so quickly.

Realistically we are 7 billion people against a mere thousand. The numbers are spoken for, **we only need** to be **educated** and **mobilized**. This film is the **re-education**, and this is the **mobilization**, but only if **you believe in it**. And only if you choose to make it so.

We must learn how to participate in **reality** and **stop relying on our authorities** for the answers because they are psychotic and entirely corrupt. We **alone** can bring about our salvation.

We need to take as much as we can back to the local level and communicate with our neighbors, form strong communities and pursue the ways of living **off the grid**, applying permaculture world-wide, and reshaping our world!

This will bring the world a place where progress is achieved by the participation of every unique individual to it, where hierarchy is non-existent and where imagination and creativity are encouraged.

A world where we change with the ever-changing and we will not become stagnant; where **free energy devices will dominate**. Free energy is at the moment being suppressed because multinational

corporations want to maintain a monopoly and stranglehold on society. **By reaching these goals abundance will finally be achieved for every single individual**, this world will be healed above and below, and all organisms will **finally thrive**. Abundance is the opposite of scarcity and debt. We will no longer live in violence, hate or depression, which are all symptoms of the current system we live under.

Of course making this change **will take** a bit of adjustment and dedication, but the rewards will far supersede **any** negativity you can possibly fathom. I guarantee it. YOU must make the leap of faith! Be brave!

What Does a Free World Look Like?

Open your eyes, that's what a free world looks like. The prison is invisible it is in our minds. **Imagine...** if all land on this earth suddenly became **free**, because **this is what it actually is, everyone**. I don't know why anyone thinks they have to pay to be here. Anyone can claim any bit of land they want, within reason of course, and every **human** will utilize the land around them and sustain themselves with Permaculture. If you are not utilizing land another human can claim it and use it. We can **set up residence** anywhere on this Earth without having to sign papers or ridiculous legislation and without spending our **entire lives paying** for the right to do so. We can design our own houses. Building houses is **easy!**

We have the capability to provide for **all life**, and in this **free society** you would live the life you CHOOSE TO! You will exert **less effort** than you **are currently**. With Permaculture design principles established, we will have **so much free time** for what really matters to us in life! And we will have clean air, clean water, pristine health, abundant food and **bask in the magic this creates**.

No one would work at a mundane job they hate, driving hours upon hours in peak hour traffic to central business districts to contribute to their extinction. **Instead**, everyone will work as they please; on whatever they please, and contribute to the earth by following their dreams, because we do our best work when we are having fun and when we have our heart and soul invested, so it makes sense to do what we are **each good at** does it not? Society CAN function this way.

There is no reason humanity cannot be more technologically evolved than we are now. We do this by harnessing free energy devices and working with a common goal of Peace, Evolution, Abundance and Freedom instead of Me, me, me money, money, money.

With the current global system discarded, all artificial constructs such as money and ego will dissipate. Because they aren't real. We will become what we **actually are** and be recognized for our skills and talents and abilities, and how much positivity we bring to the world. We will become independent, self-sufficient, infinite consciousness with infinite possibility and the mutual understanding **We Are One**.

We will live the lives we choose to not those we are forced to. Power will not be how much money you have, but will reflect **genuine power**. **Because we are recognized for our strengths**, everyone will be powerful in **their own way**. If you are not as powerful physically, you will be powerful artistically or in some other manner.

Today's society has us climbing a **fictional ladder** of success by someone else's definition. With freedom you won't have a choice but to be powerful and amazing because it will just happen, it is who you actually are without these toxins!

Women will encourage men's testosterone and men will encourage women's estrogen, because this is how we get things done. This is what is natural. Today we have feminism and psychological manipulation trying to distort our brains hard-wiring and instincts.

Remember, serving evil, accumulating things and slaving away is **not the path to happiness**, we are **fulfilled** through our connections to Love and Art and Food and Nature. Most of the time people will be out and about in their communities, talking to each other, creating art, planting food, and experimenting with natural drugs, cooking and dancing and playing music and inventing and innovating.

Everyone is **responsible** for their own lives and actions and the consequences of these actions, which are now no longer bound by any laws! The only law we will abide by is to **do no harm to others**. If this is broken the consequences will be appropriate pertaining to the **severity** of **each** situation and **resolved** by those in **closest proximity** to the event. I think this is fair. We will **all** be keepers of the peace, and some will make it their duty above all else to protect those around them, because that is just who they are by their nature.

Are you brave enough to live in a world with no laws so long as there is a thriving, positive, magical, heart-centered community all around us and abundance for all? **We are wild animals with a spiritual connection**; to try and **imprison** and **restrain** something as **powerful** as the **human mind** was **never** going to last. **Laws do nothing** but keep the population in **fear** and **under control**. What is **right** and **wrong** is **already known** and does not need to be mandated by thugs.

We will live off the land around us, and this makes sense to do so!

We will connect to the earth and heal it and ourselves through organic gardening. This will take up approximately 1 or 2 hours of everyone's day maximum (once Permaculture has been established), and we will reap the full benefits from our work. Is this not better than slaving away for 10 hours a day contributing to extinction? We will each be self-sufficient in this way.

Plants are truly amazing creations which have so many different healing properties and health benefits and tastes and textures and flavours and histories. There are literally **thousands** of different kinds of fruits and vegetables and herbs to experiment with all with different effects on our mind and body.

Supermarkets these days stock the same **uniform, patented, genetically modified** selection of the same boring few vegetables. This is why people hate fruits and vegetables. They taste horrible like chemicals and are full of pesticides! Organic plants taste so much sweeter and nutrient-rich! There is almost a drug like effect on the body. **I want diversity to be abundant!** I want to try a black apple! I want to make my own strains of plants and share them with others and bring back the wonderment of life!

We will all grow plantations of cannabis, chia seeds, **superfoods** and other valuable crops everywhere. These will literally **evolve us** into the divine, spiritual, healthy warriors and nurturers we are meant to be. Hemp is **extremely nutritious** and has thousands of uses. Who said money cannot grow on trees? It

would liberate our species and solve many of our problems including deforestation, depression, disease and violence. Cannabis promotes **higher degrees of awareness** and unites the left and right hemispheres of our brains. **Because higher levels of consciousness threaten the power structure**, many paths to them are outlawed. Cannabis makes us appreciate the beauty in little things. Widespread use of this plant would of course devastate the system we live under currently while simultaneously promoting the thought processes that would create new and better societies. It has been demonized unfairly and unjustly, and has yet to kill a single person on Earth. Any detrimental effects of cannabis can be completely attributed to this unhealthy diet and lifestyle we are forced to lead by the Eugenacists who demonize and outlaw this plant.

We will stop **taking** pharmaceutical drugs as medicine, which **suppress our potential** and diminish our minds. We will instead use plants nature has provided us! These are much more effective, with no side-effects, and we will heal the collective consciousness both physically and spiritually! Remember, diseases will be next to non-existent if these plans are followed **correctly**. Imagine that **humanity**.

We can all grow various forms of natural psychedelics and hallucinogens and stimulants and depressants and connect to nature and the stars through the experiences we have with them and **FIND SO MUCH** wonderment and love in all these things! And we will not fear these experiences. All these things around us are magnificent expressions of creation and they are beautiful and fascinating in that regard!

Alcoholic beverages can be made from food we grow, potatoes, grapes, apples. We can do this **easily**!

We will use traditional methods of gardening, grow medicinal and adaptogenic herbs to heal our bodies with and all these plants will help clean our air and repopulate our wildlife, fruit trees, vegies, greens, we utilize microclimates to build what we want and permaculture design will ensure we get full yield while working **WITH** nature and creating the diverse landscape tailored to your particular liking designed by you. **What foods you like, you grow.**

Our lives will **radically change** for the better, everyone will get rest, relaxation, and with no effort at all, just as an extension of the system we will each become fit, healthy, relaxed and strong and in a state of unconditional love for everyone and every single thing.

We educate ourselves through experience on the different methods of gardening and hunting and raising seedlings and we will pass this knowledge on to our progeny so that it is **not lost**. We will understand **LIFE** and where everything comes from and our connection to the world.

People will hunt and kill their own wildlife for meat. Hunting will de-abstract the concept for everyone and the environments we create will ensure wildlife is abundant and healthy. At the moment our environment is threatening all life upon Earth. The meat will be respected spiritually, and recognized as the consumption of an animal. And no animal will be killed in vain!

Because everyone will be healthy naturally, there will be no sickness. So everyone will be relatively happy at all times, and secure, and thus they will want to make everyone else happy and secure.

Communities will collaborate on major, **permaculture food forest initiatives** in addition to their own personal garden. This is an excellent way to give back to the earth and provide for future generations

and be a part of the future of humanity! Most will recognize this as the thing to do because they will see how fun and rewarding and spiritual such an endeavor is and how happy it makes everyone feel instinctively. It would grant each community and individual security and self-sufficiency. This boosts confidence! Everyone benefits!

Everything we could ever want to feel completely ecstatic can literally be grown in the ground beneath our feet! This is the potential of this planet. And we can live 1000 x better lives than we are currently leading.

We will plant medicinal herbal gardens so everyone is always healthy. Instead of supporting death, everything around you will support life, so with the basics catered for, you have only room to grow, **or destroy**, but there will be consequences if you choose to destroy because everyone will probably be carrying **weapons** to protect themselves in case of emergencies, but this is natural. We are **wild**, spiritual beasts with the potential to do **good and bad**. Why pretend we are anything else? **No one is completely good or completely sane**. The scariest thing is pretending we are something we are not. I'd rather know where I stand with someone than guess what's behind the mask. And I want everyone to be comfortable expressing who they are inside, and to be recognized as perfect as who they are. So long as they strive for good!

Ultimately, with Freedom what you want to do you can do, but you will suffer the realistic consequences of **every action**. If it is a **good deed** there will be **good consequences** and **bad deeds, bad consequences**.

Knowledge will be passed down from generation to generation by families. Education will be organized locally. Teaching should be from experience and with passion and because one desires to teach the next generation and pass on their knowledge and wisdom, not just because we are forced to get a job and teach a government curriculum to people not interested in learning bullshit.

Children will be taught **how** to think, not **what** to think. And independent thought will be encouraged. Children can recognize passion and sincerity and this makes them want to learn. Many teachers today are nothing more than babysitters. Children should be given the opportunity to thrive, not molded to be obedient robots with left brained perspectives to be cogs in a machine.

Cars and transportation will still exist, and we can design them to run on alternative forms of energy. People can invent these! You will need no license to drive. You will **need to know how** to drive though obviously. Transportation will be free to everyone. We could use the same road rules as we have now because they seem to work effectively. We **would** need to restructure everything off the current grid however, and I am sure if we put our minds together we can think of something far greater than what is already in place, this is, after all, just my suggestions and ideas. I am one perspective among billions, and I certainly make mistakes and I certainly don't have **all** the answers.

Everyone will stop trying to live up to the false idea of reality the TV puts out. Make up and deodorant will not even be necessary because the diet people will eat will be fresh, local plants and animals so people will **look** and **smell** beautiful without needing to add toxic chemicals on their skin to hide the external symptoms of their internal condition. But they can of course we can create and use make up if we please **we are free to do so**.

We will all be ourselves, and loved for that, because **we are all born for a reason**, and we **all** have something incredible to offer someone else. If you were raised from infancy through adolescence and into adulthood under this Free Society, you would truly be a healthy human being full of love! And if this healthy human being had a child, that child would be even healthier! And if this healthier child had a child, it would be almost superhuman I believe! And aren't you interested in seeing how amazing humanity can truly become with the right conditions? And don't you want to be responsible for creating that change?

With freedom, the more people that inhabit this earth, the better society functions, so long as we give back to the earth and recognize our place in it. We need population growth!

Cultures will form everywhere around the globe. Unique, truly multi-cultural societies. It is not about acceptance, but LOVE for all cultures, embracing, not usurping and outbreeding other cultures. Because everyone will be in a culture where they THEMSELVES feel **free** and **safe** and **secure** and **knowledgeable** and can **stand in that power**, and because everyone will be in a place **they personally like to be in**, people will **naturally enjoy** and **respect** other cultures. There is no one right way of living, there are many right ways, and if we can respect this we can have peace!

Life will look and feel magical, truly a genuine sensation of magic and euphoria. Everyone will live by their own rules, with their own morals. No one will want to hurt each other in this thriving environment but if you do evil, **good people will have the right to destroy you**. This is natural. This is fair.

I believe everyone deserves second chances to be forgiven. But if people cannot be reasoned with or are escalating a scene to violence, or are, for example, poisoning our food and water and genetically modifying our species, then we must act appropriately. We must act accordingly and with realistic consequences outside of what is considered legal or not, and in what is actually Right in this random, chaotic, nature. Don't you think?

The fact we have not retaliated to the globalists means we have not taught them any lessons, they are literally getting away with mass murder daily, this is wrong, this is not the right way to go about things because it is the wrong way! This is why we must awaken humanity from their trance!

When love abounds, and diversity and creativity off-shoot, art will return to humanity! Art creates cultures and evolves our species! And we are all free to express **art** however we want, and we will all be wanting to because we will no longer be in the **prison of ego**. Self-expression will be recognized as an amazing feat. And we will all be free to express ourselves. To be able to take something from within and bring it out for all to see is really amazing.

I think we will all carry a really nice aura and energy because of how positive everything will be. We will all live with **mutual respect** because everything will be genuinely awesome and we will live in a beautiful environment like that out of Avatar and because of the nature of the society that we each helped create around us, we embrace love in all its facets, instead of fearing it. We accept love, instead of confining and restricting it, and we recognize **love as love**, as at the moment, most think fear is love, and most think slavery is freedom. Everything is upside down.

Our right brains and pineal glands will activate through successive generations and with healthy eating habits and meditation we can access this information and these senses far easier than we can even comprehend now; a tangibly different world opens up to us without the poisons inside us. We become who we are at the core, which we were destined to be. We become our own **unique, individual, creative expressions** of the universe in **whatever way we choose to**. We follow our soul's true destiny.

Epilogue

It would take a decade, two maximum to create this. If this idea is to come to fruition we are going to need your help, personally! And this is going to have to happen UNEXPECTEDLY and FAST!

I hope **with** this film we can **accelerate** our **liberation**! I believe worldwide everyone has this same instinctive yearning to participate and **accelerate this intellectual and spiritual awakening**. I can feel a great surge of energy worldwide. Something is up! Big changes are coming! The stars are also speaking to this fact. **We do not want to reach the end thinking we could have done so much more** do we!? NOW is the time to act! **Put your power in this spirit bomb!** We need your energy humanity! **NOW!**

We are one. We need you, and you need us. And the fact is you **are** going to die one day and who knows what happens after that, but your specific self here and now, your particular expression of the universe, this is the rarest thing! You are so unique! Be your potential! Live your experience!

It is up to good people in society to bring this change. The ramifications of this insane Eugenics system and everything that is at stake demands we focus on the head vampire and drive a stake right through its heart. All the inhabitants of this earth deserve to know the knowledge of the universe! **You are the answer!** YOU CAN MAKE PEACE POSSIBLE!

It is up to us to say, you know what, enough with money, enough with the status, enough with laws, enough with wars, enough with poisons, these are all damaging!

I have consulted myself and the universe and my heart is telling me to release this film to my fellow humans and see just what happens, and ask you, what do you think? Do you think peace is the way forwards? Do you think this is the right way to go about things? What is the best course of action? Would you prefer to die a humiliating death by design? Or to truly live? Are you willing to make peace the priority? Are you dedicated to Love?

The first step is to share this film because every human being must see it. The bigger this film becomes the more people will be compelled to notice and watch! We must get healthy and know who and what we are. This is done by abandoning ego and fear, and embracing essence, love, who you are inside. And everyone should do this together! Don't judge others; recognize others as equal to you. Be what you are, and realize you are THIS for a REASON. Interpret everything yourself. Ask for help, seek and you shall find. We are one with this universe and with each other. Everything is for a reason.

If they try to control and enslave us and destroy us I say NO! Because that is the sane response, my friends. What we are doing right now is insane. We are sleep-walking through life! WAKE UP!!

If they poison our food and water and air, I say they are psychotic! That is my personal opinion, what do you think? Food and water and air is fundamental to establishing and maintaining life, what goes in your body you assimilate and become. We need these things to LIVE! And if they cannot provide us with clean water and food, then we must do something. The fact we are dependent on them for our food and water is ripe for corruption.

If they try to start a war to fulfill their crazed egos, I say **they** are the problem, not us. We are the same species everyone. Why must we kill each other because weak satanic freaks say so?

We must recognize this makes no sense and instead appreciate these people are ridiculously rich off the pain and suffering of us! We are not under their control are we? We are our own person, and our own person wants **love** and **peace** and **freedom** because it is our **base state** and **our common goal**. And there are 7 billion people who agree with this idea. **You are not alone here.**

They cannot enslave us if we do not allow them to! Use this film as an opportunity to awaken humanity, **and yourself**. This is a weapon! THE weapon!

Once humanity sees this they must pick a side. Good or evil? Which is it? For this moment in history we cannot deal in shades of grey, this is how we must operate to create this change. Which path are you walking? We are living in a black and white world for the time being. Pick a side NOW and let us get this underway!

I cannot be happy until the rest of us are happy and until all of us are free. And I look around and I do not see free, happy people. I see oblivious victims of a Eugenics Agenda who are sending their progeny straight to Hell. And **it is so real.**

This world needs a lot of work; it is not functioning as well as it **can** or as it **should**! I believe sharing this film to be a **realistic** way Peace can be achieved and maintained. This system as it currently stands, is not the way forwards, it is the wrong direction to go down because its fruits are mass ignorance, mass control, mass death, mass medication and our species' shameful conclusion.

So won't you join me in creating something better? We agree this current system is not the right thing to continue to support and uphold. So share this video and let us see just what we can create! Why not!?

We can create something better. We definitely can, we have **7 billion different perspectives that are here for a significant purpose! We literally manifested to do this every one!** I am sure we can think of something together, because I believe we are here at this point in time to **do just THIS!**

We could not ask for a better foundation to build a society on than Permaculture and Free Energy. I mean ANYTHING is better than what we have now! If every one of you shares this we will win!

With this future we will all be self-sufficient, but we will all **need each other** to help create the best possible life, so everyone will be vital and recognized as such. We will empower everyone by empowering ourselves and we will all co-operate to create the most positive outcome for everyone.

This is not about who is right or wrong; it is about figuring out together what is the best solution for everyone. **We must start the discussion.** We can provide for our families and heal this earth we share, and co-create the futures our hearts desire.

We just need to destroy the New World Order by **recognizing it exists** and admitting it serves no purpose, building a giant permaculture food forest all around us and utilizing the inventions that would create a surge in our evolutionary development and re-familiarize ourselves with what it is to be human, remembering who we are, where we are, why we are here, what we are here to do, how to do it, and then doing it. A 21st century renaissance, I think we can pull it off my friends. This generation, we make a break with the lies and the tyranny, and we restore our god given right to Life and Liberty. **We go down in history as the ones that finally said NO!**

I feel everything is going according to plan worldwide; everything is playing out exactly as it should and no death is in vain. I can feel consciousness is finally evolving, I feel people are finally going to start paying attention; I feel 2012 will be a year to remember. It is written in the stars themselves! I cannot wait to get this started globally because I cannot wait for the **party** afterwards. It is going to be so fun celebrating freedom with you all! DO you want to be a part of history? THEN SPREAD THE WORD! You are now ready to shake shit up in your reality for the better of mankind. It is time we start utilizing our power and our potential **AND TAKING THIS WORLD BACK!!!** IT IS TIME FOR US TO TRULY LIVE! HUMANITY! I PRESENT TO YOU THE **SECRET** TO YOUR SUCCESS! THE **KEY** TO YOUR LIBERATION!

The Virus of Freedom It cannot be contained once it has been unleashed. **You Must Unleash It.**

Thank you so much for watching. **Abandon this system, redirect your energy, share this film and FOOD FOREST THE WORLD!** Essentially, follow your heart and soul.
